March 29th, 2021

As of March 29th, the total enrollment for in-person learning is: 3,009 and the total enrollment for remote learning is: 11,046
This includes BOTH the “3%” that returned February 22nd and the “25%” that have returned since March 1st.

Totals for the *****projected in-person and remote enrollment are based on the numbers that are currently illustrated***, therefore they do not add up to the total remote enrollment as we are awaiting projections from LHS and complete projections from Sullivan. The difference between the projected in-person and remote total is 2,811. When Lowell High and the Sullivan are accounted for, the total numbers will be in alignment. Additionally, our schools continue to host orientation forums through March 29th; with this additional parent input, we continue to see fluctuations in student projections.
